WHAT IS COMMUNITY POLICING?

Community Policing is a strategy aimed at achieving more effective crime control, reducing fears of crime, improving quality of life, and improving police service and legitimacy. These goals are achieved through a proactive reliance on community resources, seeking to improve crime causing conditions. The police and the community are encouraged to work closely together to solve problems of crime, physical and social disorder, and neighbourhood decay.

WHAT ARE THE OBJECTIVES OF COMMUNITY POLICING?

- Establishing a partnership between police and the communities they serve, ensuring effective protection of communities and a better quality of life.
- Ensuring the police address the primary needs of the community, and are accountable to these needs.
- Enhancing the quality of information available to the police to develop a proactive and problem-solving approach to crime and violence.
- Providing communities with a visible and accessible policing presence.
- Enhancing the public's confidence in the police and deterring criminals.
- Inspiring police officers who can interact sensitively with their communities and in a manner that respects local values.

WHAT IS COMMUNITY POLICE FORUM?

A Community Police Forum is a group of people from a community and police representatives who meet to discuss safety problems in their community. They aim at ensuring police accountability, transparency, and effectiveness in the community. CPFs are established in terms of section 19(1) of the S.A.P. S. Act, Act 68 of 1995.

THEREFORE, public participation and attending the community meeting, is the essence of the CPF.
